Response to Amendment

1. This action is in response to amendment files on December 01, 2006. Claim 28 has been amended. Claims 28-30 are pending examination.

Claim Rejections – 35 U.S.C. 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. The factual inquiries set forth in *Graham v. John Deere Co.*, 148 USPQ 459, that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or unobviousness.

4. Claims 28-30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Krane et al. US Pat. No. (5,799,063) in view of Uppaluru et al., US Pat. No. (6,400,806) as discussed in the previous office action. Further:

Krane et al., fail to disclose, conducting an internet search of non-voice sources (i.e. text) and audibly providing resultant information to the user via the telephone call (i.e. voice or speech).

However, Uppaluru teaches conducting an internet search of non-voice sources (i.e. text) and audibly providing resultant information to the user via the telephone call (i.e. voice or speech) see (col.8 lines 21-23, lines 31-35 and col.12 lines 3-5).

It would have been obvious to one of ordinary skill in the art at the time of the invention to modify Krane to include the specific teaching of retrieving non-spoken or non-audio information, such as text, from the internet and transforms it into voice or speaking output, in view of Uppaluru, in order provide universal access to voice and speech files in order to allow widespread use of such files for performing speaker dependent speech recognition, (see col.2 lines 21-25).

Response to Arguments

5. Applicant's arguments have been fully considered but they are not persuasive.

In response to applicant's arguments, the arguments are addressed above.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3627

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
